I use data to explore business questions in healthcare,
drawing on psychology training and patient-facing operations work.

EDUCATION

MSc in Healthcare Innovation & Data Science, emlyon business school, Lyon, France, Expected 2027
Coursework: SQL, Data Visualization in Python, Global Health Ecosystems, Advanced Project Management, Cybersecurity, IP Rights & Data Governance

Bachelor of Science in Psychology, Portland State University, Portland, OR, USA, 2019

PROJECTS

orAIti, AI triage tool, Harvard Health Systems Innovation Lab (HSIL) Hackathon, Apr 2026
- Won the Coup de Coeur award for an LLM triage tool helping patients decide whether to seek care.
- Researched competitors and patient pain points, and co-developed the revenue model.

Discharge Letter Tool, Advanced Project Management, emlyon, Oct 2026 – present
- Owned product development (Phase 4) in an Agile-Stage-Gate plan, scheduled as five 2-week sprints.
- Built the level-1 data flow, tracing all 10 features and mapping where patient data leaves the hospital under GDPR.

PROFESSIONAL EXPERIENCE

Reporting Specialist, Overseas Merchandise Inspection Company (OMIC), Portland, OR, Jun 2024 – May 2025
- Held a central client process role ensuring quality in time-critical daily lab results delivery for household-name brands, with final sign-off and delivery at the end of every day, tracked in a laboratory information management system (LIMS).
- Translated lab terminology into plain language for clients and issued ISO/IEC 17025-compliant export certificates. Shaped the team's changeover to SAP by proposing security features and report delivery improvements.

Operations Associate, House Nine, Portland, OR, Mar 2023 – Jun 2024
- Improved insurance intake by rewriting client communications at a medical massage and acupuncture clinic, raising rebooking by 22% over four months.
- Developed a tea line from provider feedback, covering recipes, costing, inventory processes and staff training.

SKILLS

Data: data acquisition and cleaning, SQL, Python, Databricks, Tableau, Excel
Systems: VS Code, GitHub, Miro, Google Workspace, Microsoft Office
Project management: Agile-Stage-Gate planning, work breakdown structure (WBS), requirements traceability
